## SUMMARY

---

Frontend Developer with 3 years of experience in designing and implementing interactive and responsive web applications. Proficient in JavaScript, React, TypeScript, and modern frontend frameworks. Recognized for improving code quality, enhancing user experience, and collaborating effectively with cross-functional teams.

## TECHNICAL SKILLS

---

**Frontend Technologies:** JavaScript, React, TypeScript, HTML, CSS, Redux, Context API, Bootstrap

**Testing & Automation:** Selenium using Python, JUnit

**DevOps:** Kubernetes, Docker

**Others:** MySQL, GitHub, Figma, Data Structures & Algorithms, Python, Java, Agile, SDLC, IBM Watsonx.ai

## EXPERIENCE

---

### Frontend Developer

Aug 2021 – Dec 2023

*IBM Spectrum Modernization GUI*

IBM

Designed and developed interactive pages using IBM carbon design components from Figma, enhancing user experience.

Debugged and resolved over 60+ bugs, improving system stability and performance.

Acted as the key technical liaison for the GUI team, addressing complex customer queries and improving customer satisfaction.

Led the development of GUI test cases using Python and Selenium, enhancing testing protocols and coverage.

Authored comprehensive manual test cases and orchestrated regression test plans, leading to a 20% increase in testing efficiency.

Led the Automation Testing Team, improving script accuracy by 30% and reducing execution time significantly.

## PROJECTS

---

### Tricep - AI Driven Cyber Security Platform

*Frontend Development*

Developed multiple web pages and components using React, improving application functionality and user experience.

Collaborated with backend developers to integrate API endpoints, ensuring seamless data flow and interaction.

### Forkify – Frontend Application

*Recipe Management Application*

Developed a recipe search and management application with features like searching, bookmarking, and custom recipe creation.

Implemented recipe search with pagination for easy navigation through results.

Created dynamic serving size adjustment with automatic ingredient update.

Implemented user recipe upload feature with personalized recipe management.

Ensured persistent bookmarks using local storage to ensure data retention across sessions.

## EDUCATION

---

### Bachelor of Technology in Computer Science

Aug 2017 – Jun 2021

*GL Bajaj Institute of Technology and Management*

Greater Noida

### Senior Secondary

Mar 2016 – Apr 2017

*Hansraj Modern Public School*

Jhansi

## CERTIFICATES AND AWARDS

---

**Certificates:** Generative AI for Everyone, Generative AI: Prompt Engineering Basics

**Awards:** Wow Award, Star Award
